## Do Bees Listen to Prophets?

Scientists counted the number of brain cells of bees: about 1000. Humans outnumber that by far with their more than 10 billion brain cells!

But bees achieve a tremendous result. They make ingenious honeycombs. They are perfectly organized and hardworking. Once a bee finds flowers with nectar he returns to the colony and communicates with a special bee-dance exactly the distance, the direction and the kind of flowers and nectar in that field. But what happens when a bird waits there to swallow the bees that listen to the dance and hurry to that field? One of the surviving bees returns and warns the other bees with a warning signal: it gives an emergency-"stop!" signal by vibrating in a special way. And all the bees listen immediately and are warned.

The question is: Do we – with our 10 billion brain cells! – listen to the emergency warning signals of God? Don't be tempted to visit that internet page that makes your mind unclean and sinful. Don't listen to the false music and dances that tempt you to go to the wrong place...

I just wondered: What do we do with our 10 billion braincells?

HS

## The Greatest Commandment and Commander

*Noby Kennel, what have you learned and has made an impact in your life, throughout the struggles you have experienced as a child of God?*

I understand that every kid has their own personal struggle, I myself have had my fair share of hardships. I have seen people I love and care for with all my heart go through trials. Undoubtedly, what I have learned from my experience is that; God is in control of our lives and that we should love and trust Him no matter what. What is the greatest commandment?

*To love the Lord our God with all our heart, soul and mind.*

Exactly! In everything we should glorify God, in tough times and in good times. God does not promise us that if we glorify HIM then our life will be easy, indeed he even tells us that there will be trials. I know that as believers in Christ we will have hardships sometime or another but we must remember that God is in control. He is the great Commander and He gave us a commandment, "to love and glorify Him with everything that we are." Struggles and trials are part of the Christian walk; we will all face a difficult time in our lives. What we need to remember in those times is that God is in control. He is the Creator of everything, the Creator of us, and we are commanded to glorify Him, no matter what!

***Are you remembering to glorify and love God even in times of hardships?  
Look to Jesus because He is in control of everything.***

Meredith Whitman

# KIDS' CORNER

Mitchell Whitman is nine years old and is in third grade. His favorite subjects are math, P.E, and phonics. When he is out of school he likes to play with his friends and read with his mom. His favorite colors are red and black and his favorite food is mashed potatoes.

## Birthdays in March!

13th Tracy Wise  
15th Lydia Wise  
19th Justin Deed  
20th Devon Sehorn  
22nd Cameron Gerst  
26th Audrey Wise

Here's an Easter picture for you to color! Best colored picture gets a prize.

## Headmaster's Note: Good Job!

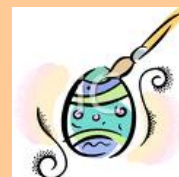

I want to take this opportunity to say "well done" to all who have worked so hard this last term. You may be the teacher who worked well overtime in order to make the material understandable or you may be the student who worked overtime in order to understand the material. Maybe you were involved with memorizing a small novel in order to entertain the rest of us for two "Important" nights. You could have been part of the group involved in planning extra-fun school activities like skate night, pairs day and a drive-in movie night. Perhaps you were the one who faithfully did your work detail each day. Do you fit somewhere in this? If so, THANK YOU for doing a good job. It just wouldn't have been as nice if you didn't do a good job. The 4<sup>th</sup> and last term is almost here so let's keep pressing on to the end.

## Interesting Facts:

76% of people eat the ears first on chocolate bunnies.

90 million chocolate bunnies are made a year.

Painting eggs is called Pysanka.

75 percent of children would do extra jobs around the house for more Easter Candy.

The world's largest jar of jelly beans weighs 6,050 pounds

## HOT NEWS!

Student Council raised K500 for a water fountain cooler!

The end of school for term three is this Friday (March 19th)!!!

Junior's and Senior's spaghetti dinner raised \$350 for their Sneak!

Ryan had a great meal!
