A tool achieves its destiny only in the hands of the Master

Our motivations reveal a lot about what we think life is about, don't they?

Enjoyment and pleasure; success; our families; comfort; respect: all of these can drive our lives.

The Parable of the Ten Minas in Luke 19 tells us that life now is to be shaped around a day to come; a day when we stand in front of Jesus and he asks us,

**'What have you done
with what I gave you?'**

It's hard to keep this in perspective, isn't it?

1 Corinthians 10:31 says; 'So whether you eat or drink or whatever you do, do it all for the glory of God.'

Is this what motivates you? Let's encourage one another to live to give Him glory in all things.

Rachel Knight

Graduate

Katelyn Wright

Looking back on your years at Malango, what is one of your favorite experiences?

One of my favorite experiences is the 2009 formal dinner .

What was your favorite grade in school?

My favorite grade is 12th, because it is the year you have been looking forward to since you started school and it is finally here I step back and say: "Wow".

What is the most important thing that you learned?

Even though you might fail a few tests or have difficulties learning new things, you have to keep a good attitude and be willing to learn in order to succeed.

What are your plans for the future?

I would like to get an occupational training visa so that my family can stay here for another year, so that the Laureti's can learn the language, and so the Mengen work can continue, without hindrance. I will be working in the clinic with Miss Carol and when I go back to Canada I hope to go to Bible school.

What is some advice you would like to give the younger students?

Keep a good attitude and a positive outlook on school, and most of all have fun. Learning is meant to be enjoyable. Make the most of every opportunity!

What is something that has played an important role in your school life that you would like to share?

Having teachers that make learning fun has helped me enjoy school and want to learn more.

Holly Sehorn

You cannot add days to your life,
but you can add **life** to your days !!!

KIDS' CORNER

TEDDY BEAR PICNIC

Map 1 enjoyed a Teddy Bear Picnic as a special activity, while studying real Bears in Science class. All the Teddy Bears that had been brought into class, were taken outside to join them, while they ate a great selection of Teddy Bear Sandwiches, cookies, and many other treats. They also played games and ended with a reading from a favorite Winnie the Pooh Book.

Kathleen Robe was the Student of the Week for Map 1 last week. Kathleen is in Grade 1. She loves to read and play Math games. Kathleen is also a very helpful student when it is time to clean up and is always willing to remove any kind of insects From Mrs. Sutton's class. Keep up the great work Kathleen!

Answer MM15: Proverbs 17:28 Even a fool, when he is silent, is counted wise...

Where is written ?

The foolishness of man perverteth his way: and his heart fretteth against the LORD.
