Principal's Note "Encourage each other"

The dictionary says that "encourage" is a word that means to inspire with courage or hope. A kind word that strengthens someone is much more powerful than saying something hurtful.

If someone is weak and cannot solve a problem and we help them, then how much better will they feel about themselves? One purpose we have here on Earth is to encourage others and there are several ways to do that. Some of the best friendships have been formed while two people work on a problem together.

So let's encourage each other, student to student, teacher to student and student to teacher and make friends for life.

1 Thess. 5: 14 "...
encourage the timid,
help the weak, be pa-
tient with everyone".

is a beginning.
Keeping together
is progress.
Working together
is success.**

Did you always want to be a teacher?

No. I was going to be a professional ballerina until I was 17, but then a leg injury made me change my mind, so when I was 18 I decided to be a teacher.

When did you first hear about New Tribes Mission?

I have been hearing about New Tribes since I was about 5 years old from friends that live in Lapilo.

What third world countries have you been to, other than Papua New Guinea?

I haven't ever been to any other third world countries. I have been to Spain, Germany, Switzerland and many other countries though.

Is this your first experience in the tropics?

Yes, although Spain was somewhat tropical it wasn't as hot as it is here.

What has been your best experience here so far?

It has been getting to know the people and the work going on here and how it is related to the work going on in the tribes.

Is there anything else you would like to add?

I am really excited to be here and glad to get to know everyone here. Also if anyone is interested in dance let me know!

What is your view of team work?

Team work is about everyone working together to reach the same goal. You have to be willing to sacrifice and compromise for the good of the team.

What is the hardest work you have ever done?

I think the hardest work I have ever done is teaching a class of 28 eight—year—olds English when they only knew Spanish and I didn't.

What work do you most enjoy?

I most enjoy serving God.

What work do you most dislike or dread?

I don't like to garden at all!

INTERESTING FACT!

Did you know it took approximately 2.5 million blocks to build the Pyramid of Giza, which is one of the Great Pyramids?

Precious Thoughts

People ask me, "Why did you become an electrician?" I had no better ideas. I wanted to do something with my hands, but still have to use my head and what a buzz it is (literally).

What do you do or what do you want to do? Why do you do it? I enjoy my work. I get to go to lots of interesting places, from houses to prisons to film studios and factories, and do lots of different things. One thing that I did think about when I started my training was, how I can use this to serve God? All we do should be to the glory and honor of Christ. Phil. 2:13, "for it is God who worketh in you both to will and to work, for his good pleasure." Our biggest call is to the "work of the Lord" whether that is taking out the rubbish (trash for all you Americans) or preaching, we can do it as a service to others and in a way that brings Glory to God.

I would like to take this opportunity to encourage and thank you all for the work that you do in taking the gospel to the ends of the world. 1Cor. 15:58, "my beloved brothers, be steadfast, immovable, always abounding in the work of the Lord, knowing that your labor is not without fruit in the Lord."

HIDDEN CAMERA

We work hard with our own hands. When we are cursed, we bless; when we are persecuted, we endure it.
